carole l crumley has brought together top scholars from across  
anthropology in a benchmark volume that displays the range of  
exciting new work on the complex relationship between humans and  
the environment continually pursuing anthropology's persistent  
claim that both the physical and the mental world matter these  
environmental scholars proceed from the holistic assumption that  
the physical world and human societies are always inextricably  
linked as they incorporate diverse forms of knowledge their work  
reaches beyond anthropology to bridge the sciences social sciences  
and the humanities and to forge working relationships with non  
academic communities and professionals theoretical issues such as  
the cultural dimensions of context knowledge and power are  
articulated alongside practical discussions of building  
partnerships research methods and ethics and strategies for  
implementing policy new directions in environment and anthropology  
will be important for all scholars and non academics interested in

the relation between our species and its biotic and built environments it is also designed for classroom use in and beyond anthropology and students will be greatly assisted by suggested reading lists for their further exploration of general concepts and specific research learn more about the author at the university of north carolina anthropology department web pages

highlighting the most important topics issues questions and debates these two volumes offer full coverage of major subthemes and subfields within the discipline of anthropology

this volume presents the revival of kinship studies in anthropology and explores new avenues in this re emerging subfield the authors review the history of kinship in anthropology and its theory

non aboriginal material

this book presents new directions in contemporary anthropological dream research surveying recent theorizations of dreaming that are developing both in and outside of anthropology it incorporates new findings in neuroscience and philosophy of mind while demonstrating that dreams emerge from and comment on sociohistorical and cultural contexts the chapters are written by prominent anthropologists working at the intersection of culture and consciousness who conduct ethnographic research in a variety of settings around the world and reflect how dreaming is investigated by a range of informants in ever more diverse sites as well as theorizing the dream in light of current anthropological and psychological research the volume accounts for local dream theories and how they are situated within distinct cultural ontologies it considers dreams as a resource for investigating and understanding cultural change dreaming as a mode of thinking through contesting altering consolidating or escaping from identity and the nature of dream mentation in proposing new theoretical approaches to dreaming the editors situate the topic within the recent call for an anthropology of the night and illustrate how dreams offer insight into current debates within anthropology s mainstream this up to date book defines a twenty first century approach to culture and the dream that will be relevant to scholars from anthropology as well as other disciplines such as religious studies the neurosciences and psychology

includes articles on issues of worldwide anthropological interest

following periods of intense debate and eventual demise kinship studies is now seeing a revival in anthropology new directions in anthropological kinship captures these recent trends and explores new avenues of inquiry in this re emerging subfield the book comprises contributions from primatology evolutionary anthropology archaeology and cultural anthropology the authors review the history of kinship in anthropology and its theory and recent research in relation to new directions of anthropological study moving beyond the contentious debates of the past the book covers feminist anthropology on kinship the expansion of kinship into the areas of new reproductive technologies recent kinship constructions in euroamerican societies and the role of kinship in state politics

like earlier editions this thoroughly updated sixth edition of the classic textbook provides readers with a basic understanding of the library of congress classification system and its applications

the library of congress classification system is used in academic legal medical and research libraries throughout north america as well as worldwide accordingly catalogers and librarians in these settings all need to be able to use it the established gold standard text for library of congress classification lcc the sixth edition of guide to the library of congress classification updates and complements the classic textbook s coverage of cataloging in academic and research libraries clear and easy to understand the text describes the reasoning behind assigning subject headings and subheadings including use of tables explains the principles structure and format of lcc details notation tables assigning class numbers and individual classes and covers classification of special types of library materials the last chapter of this perennially useful resource addresses the potential role of classification in libraries of the future
