new york times bestseller finalist for the national book award nonfiction how did humanity originate and why does a species like ours exist on this planet do we have a special place even a destiny in the universe where are we going and perhaps the most difficult question of all why in the meaning of human existence his most philosophical work to date pulitzer prize winning biologist edward o wilson grapples with these and other existential questions examining what makes human beings supremely different from all other species searching for meaning in what nietzsche once called the rainbow colors around the outer edges of knowledge and imagination wilson takes his readers on a journey in the process bridging science and philosophy to create a twenty first century treatise on human existence from our earliest inception to a provocative look at what the future of mankind portends continuing his groundbreaking examination of our anthropocene epoch which he began with the social conquest of

earth described by the new york times as a sweeping account of the human rise to domination of the biosphere here wilson posits that we as a species now know enough about the universe and ourselves that we can begin to approach questions about our place in the cosmos and the meaning of intelligent life in a systematic indeed in a testable way once criticized for a purely mechanistic view of human life and an overreliance on genetic predetermination wilson presents in the meaning of human existence his most expansive and advanced theories on the sovereignty of human life recognizing that even though the human and the spider evolved similarly the poet's sonnet is wholly different from the spider's web whether attempting to explicate the riddle of the human species free will or religion warning of the collapse of biodiversity or even creating a plausible portrait of e t wilson does indeed believe that humanity holds a special position in the known universe the human epoch that began in biological evolution and passed into pre then recorded history is now more than ever before in our hands yet alarmed that we are about to abandon natural selection by redesigning biology and human nature as we wish them wilson soberly concludes that advances in science and technology bring us our greatest moral dilemma since god stayed the hand of abraham

written by one of japan's foremost contemporary thinkers and scholars zen and modern society is the third in a series of essay collections on zen buddhism as seen in the context of western thought throughout his career masao abe has articulated the meaning of zen thought in a uniquely compelling way at once true to the original tradition and appropriately relevant to a variety of comparative standpoints ranging from biblical judeo christianity to modern existentialism phenomenology and postmodernism as a leading representative of the kyoto school which has sought a critical comparative linking of eastern and western thought abe has based his approach on constructive mutually respectful yet critical intellectual interaction and dialogue with some of the leading figures in the west including paul tillich hans kung and eugene borowitz as well as dozens of colleagues students and disciples together with the previous volumes this work examines and exemplifies some key features of kyoto school thought while the essays presented here should be read in light of the socio political criticism that has since been lodged against the kyoto school and more particularly i

today the human species is collectively confronting a complex existential crisis comprised of a number of diverse elements political economic religious technological and environmental the globalization of information and commerce has revealed to us the universality and interrelatedness of all of these factors a treatise of humanism is an attempt to address the human crisis through an examination of ourselves our past our possibilities for a future our common rational capacity which should give us hope and our common human nature as a philosophy of humanism

this book shares many ideas with existentialism and it may in fact be viewed as a work of american existentialism focused on our common human condition and on what we may need to do to continue to survive and to thrive together not only as a species of life unified through reason but as an interrelated collectivity of unique human individuals

the dalai lama opens the middle way with an elegant argument for the power of compassion in cultivating a happy life from there he connects core ideas of buddhist philosophy to the truths of our shared condition his holiness delivers a sparkingly clear teaching on how the buddhist ideas of emptiness and interdependency relate to personal experience and bring a deeper understanding of the world around us in down to earth style this book sets forth a comprehensive explanation of the foundational teachings of the mahayana tradition based on the works of two of buddhism s most revered figures using nagarjuna s middle way the dalai lama explores buddhist understandings of selflessness dependent origination and the causal processes that lock us in cycles of suffering he grounds these heady philosophical discussions using tsongkhapa s three principal aspects of the path presenting a brief explanation of how to put ethical discipline wisdom and compassion into practice through these beautifully complementary teachings his holiness urges us to strive with an objective mind endowed with a curious skepticism to engage in careful analysis and seek the reasons behind our beliefs

humanity was created and brought into a framework of existence that had principles that were set prior to its existence both in the physical and

spiritual realms respectively and collectively being crafted into the framework of existence humanity is subjected to the principles that preceded their formulation though the principles were formulated with humanity in mind and for the existence of humanity that came into being in a principle as per the law of framework that states everything exists in a principle from a principle and became from and through that principle in the mind of its author whose existence is by a principle in the framework of his or her own existence it is therefore significant for man to learn the rudiments of their existence to grasp the mysteries of life encapsulated within the framework of their existence that proceeded from a higher framework of existence for every framework produced is a testament of intelligence that is in a higher plane of existence compared to the plane of existence of their own work and or creation god s existence is as of the aforementioned in a higher plane of existence and is the highest plane of existence because he has no precedent
